

Kurspaket utbytesstudier hösttermin 2016

Punkt 129 – Protokoll Utbildningsrådet 150930

Bakgrund: Under 2015 har sättet att ansöka utbytesstudier ändras när det gäller inkommande utbytesstudenter. Detta innebär att för att kunna erbjuda utbytesstudenter studieplatser så måste kurstillfällen göras i Selma.

Designhögskolan erbjuder inte valbara kurser utan kurserna kan endast tas i den speciell ordning beroende på inom vilket program man vill bedriva sina utbytesstudier. För att förenkla för den sökande skapas kurspaket.

Noteras: Kandidatprogrammet består till största delen av kurser som går över två terminer. Detta innebär att det inte går att göra kurstillfälle eller kurspaket i Selma då utbytesstudier söks för en termin. Programansvarig kommer därför att skriva en kursplan som vänder sig till utbytesstudenter.

Förslag: Följande kurspaket föreslås erbjudas för höstterminen 2016.

Masterprogram:

Industrial Design, Advanced Product

5ID074	Skills and Techniques	7,5 credits
5ID117	CAID-Advanced level, step 1	3 credits
5ID120	CAID-Advanced level, step 2 for APD	4,5 credits

Industrial Design Intensive:

Industrial design, Intensive

5ID182	Design process basics	15 credits
5ID194	Design Implementation	15 credits

Kandidatprogrammet

Industrial Design, BFA programme

Kursplan presenteras senare.

Courses packages for incoming exchange students fall term 2016

Item 129 – Minutes Education Council 150930

Background: Application for exchange studies have changed during 2015 when it comes to incoming exchange students. This means that in order to offer exchange students a study place course dates have to be created in Selma.

UID does not offer elective courses, courses can only be taken in specific order, depending on in which program they apply to. To simplify for the applicants course packages are created.

Noted: The Bachelor programme consists mostly of courses which go over two terms. This means that is not possible to create course dates or course packages in Selma since exchange studies is applied for one term at a time.

Suggestion: The following course packages is proposed to be offered for the fall semester in 2016.

Master programmes:

Industrial Design, Advanced Product

5ID074	Skills and Techniques	7,5 credits
5ID117	CAID-Advanced level, step 1	3 credits
5ID120	CAID-Advanced level, step 2 for APD	4,5 credits
5ID096	Project 1: Design Methodology	15 credits

Industrial Design, Interaction

5ID084	Skills and Techniques, ID	7,5 credits
5ID076	Project 1: Professional product	15 credits
5ID075	Graphic Design 1	7,5 credits

Industrial Design, Transportation

5ID094	Skills and Techniques, TD	7,5 credits
5ID117	CAID-Advanced level, step 1	3 credits
5ID118	CAID-Advanced level, step 2 for TD	4,5 credits
5ID086	Project 1: Vehicle Design	15 credits.

Industrial Design Intensive:

Industrial design, Intensive

5ID182	Design process basics	15 credits
